

The experience of SSSV program in Singapore and Malaysia

Ngee Ann Polytechnic • Universiti Teknologi Malaysia

Back ground

◆ What is SSSV program?

SSSV (Short Stay Short Visit)

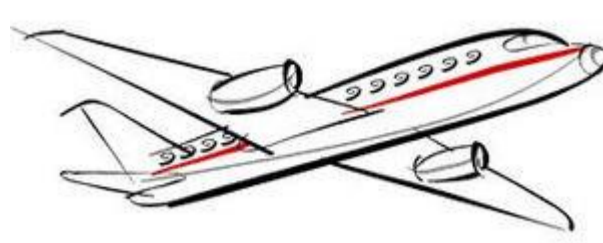

- It is short term intercollege exchange beyond the sea.
- It is possible to know the research of other universities.
- It is possible to become friends with overseas students.

◆ The preparation of SSSV program in Japan

- ① Progress of research
- ② Preparation of abstract
- ③ Practice of presentation
- ④ Contact with the host student

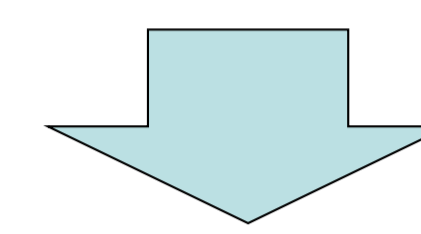

Leave Japan to overseas

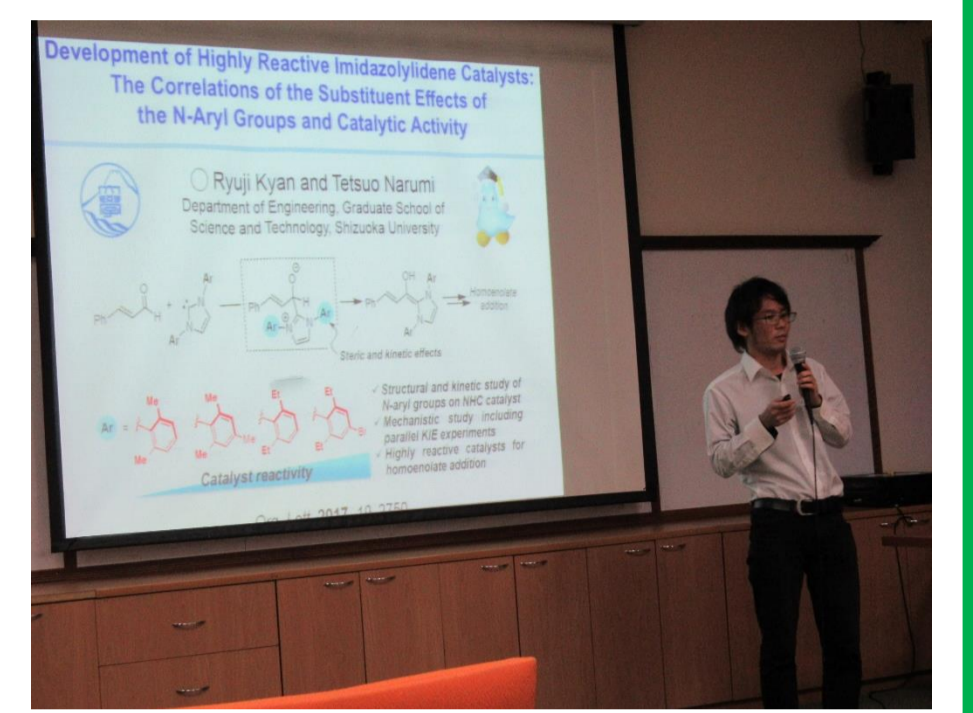

Objective

◆ Goal of SSSV program

- To improve skills that are required by professional engineers
- To deliver scientific papers at a symposium
- To share experiences with foreigner students
- To cultivate debating and presentation skills

It is possible to have a wonderful experience.

Ngee Ann Polytechnic

Ngee Ann Polytechnic

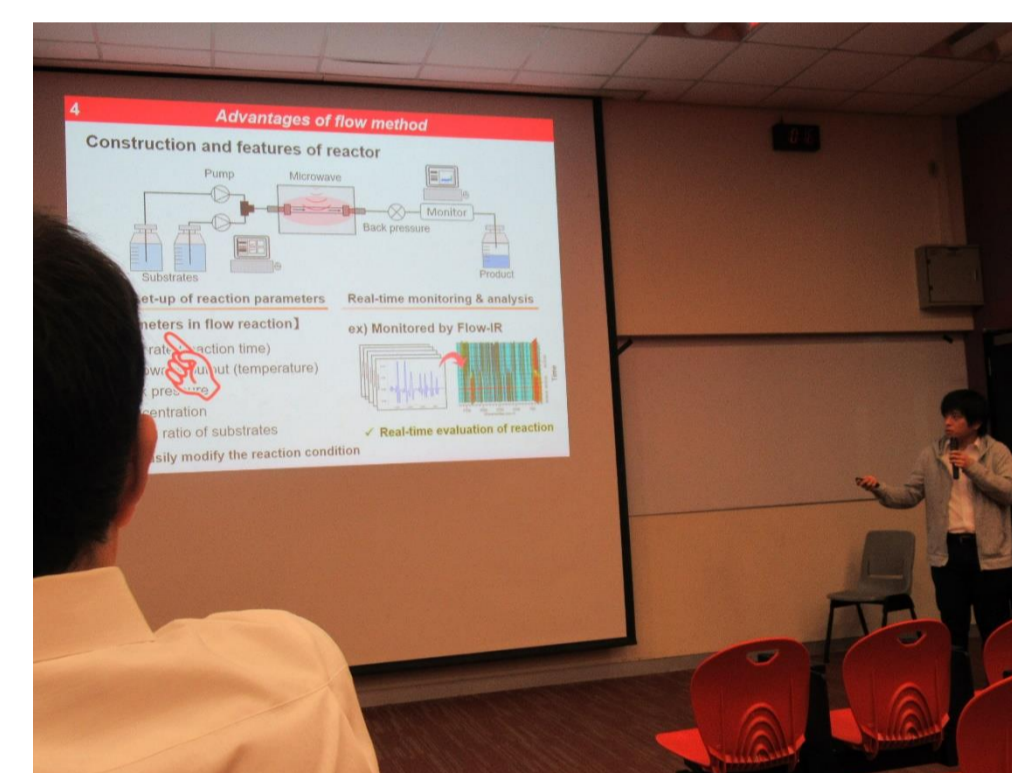

Ngee Ann Polytechnic (Abbreviation: NP) is an institution of higher learning (IHL) in Singapore with more than 14,800 full-time and 3,000 part-time students, more than 1,800 staff, and 148,000 alumni. As an industry-oriented alternative to a broader based high school education, polytechnic graduates in Singapore are sought after for work or many continue to complete university degrees.

The presentation at Ngee Ann Polytechnic

(Life Sciences & Chemical Technology)

- Research in biochemistry field
- Different fields from us
- Valuable Q & A session
- A graduate presentation of NP students

Ngee Ann Polytechnic's cafeteria with NP students

- There were many kinds of food of various countries.
- Prata recommended for local students was excellent.
- Prata and chicken rice seemed to be popular.

Universiti Teknologi Malaysia

Universiti Teknologi Malaysia (UTM)

Universiti Teknologi Malaysia (also known as UTM) is a public research University in Malaysia and a research-intensive university in engineering, science and technology. The main campus is located in Iskandar Puteri, Johor and it has a branch campus in Kuala Lumpur. UTM is a graduate-focused university with 56% of its student population consisting of postgraduate students, the highest in Malaysia. As of 2015, UTM has more than 5,000 international students from more than 60 countries, the highest among research universities in Malaysia.

The presentation at UTM (Institute of Bioproduct Development)

- Many students' participation
- All presenters are PhD students.
- A vigorous discussion
- High level presentation

Dinner time at Iranian food restaurant with UTM students

- It was a dish using rice and boar meat or chicken. It was very good.
- We could get along with them by surrounding the same table.

Other places

Agency for Science, Technology and Research (A*STAR)

Nanyang Technological University (NTU)

- One of world-class research institutes
- Large scale laboratory equipment
- We took a lab tour.
